NOTE 1: The variable codebook containing variable names/labels, operational definitions, and data sources is listed as **CROA PAPER DATABASE CODEBOOK_FINAL.pdf**.

NOTE 2: The data and statistical procedures by which the factor scores for the *Organizational Fairness* latent variable measures are created from FEVS individual-level data for each FEVS repeated survey wave/cross-section/year appear as part of these data replication file materials [2010-2014].
